Testing the borders of the future

Help make border checks **quicker** and **easier** by participating in the **Smart Borders Pilot**

- Open to non-European Union citizens

  - Your participation is voluntary
  - This Pilot is fully compliant with all national data protection guidelines
  - Personal data will only be used for the purpose of testing and will be deleted immediately afterwards*

Thank you!

*Passport and biometric information will be captured only in order to evaluate capture time and quality. In some countries, data may be stored for national test purposes in addition to the EU pilot and in compliance with national data protection regulations.
